Healthcare & Your Heart	April 28	2:45PM	10:00	Hometown Happenings

Hyper-expensive medical procedures, like stenting or the million dollar heart transplant taxpayers gave former vice president, Dick Cheney, recently; these may become off-limits to the average American – especially if Obamacare stands. A relatively new procedure called EECP, which costs approximately \$7,000 per patient, is gaining acceptance across the country, including Walker County. Bill MacCormick interviews Dr. Ozlem Soran, an associate professor of medicine and associate professor of epidemiology research, and director of the EECP lab at the University of Pittsburgh’s heart and vascular unit about EECP.
